Subject: Item H 2.2. Potential for Employment lands along 400 series highways report

Dear Mayors and Regional Councillors,

I am shocked that after all of this time York Regional Council is considering asking the province to remove farmland and natural areas from the Greenbelt and Oak Ridges Moraine Conservation Area, and to extend build water and sewer pipes from Lake Ontario to facilitate sprawl in the Greenbelt. As a result I am requesting that you vote against items 1 and 2 on your agenda.

I urge Council to support efficient growth by building up in our existing urban areas, utilize efficient sewer servicing and stop putting our farmland and natural areas at risk. I urge Members of Council to vote NO to both of these items.
