

DEPUTATION IN WRITING

COMMITTEE OF THE WHOLE
OCTOBER 8, 2020

Subject: Opening Up Greenbelt

Spokesperson: Dorothy Zajac

Name of Group or person(s) being represented (if applicable):

Brief summary of issue or purpose of deputation:

To the York Region Councillors:

On Thursday, October 8th, there is a request on your agenda to the Provincial Government to open the Greenbelt to development. (water and wastewater)

For years York Region has worked to protect the Greenbelt and the Oak Ridges Moraine realizing their importance to all of Southern Ontario. It would now be against the law to open this up to any kind of development.

There is no need for development in this area as written by the development industry's own planning consultants.

The letter by Susan Swail explains the situation well and I hope that you will take what she has written very seriously. The future of the well being of the Greenbelt depends on your decisions. I fail to understand why you would want to go against many years of scientific study and put the Greenbelt in jeopardy.

Yours sincerely,

Dorothy Zajac, a resident of York Region for 45 years.
