Dear York Region Councillors,

By the grace of the people, you are sitting where you are today, and today it is a heavy responsibility that is laid upon your shoulders. Today you are asked to make a choice that will affect the lives of the millions of people. Today, IS in fact, a historic vote.

So, it is today, that we appeal to you today to AWAKEN to what is truly occurring in our country and indeed the world.

By now you must have seen all the data and facts. By now, you must KNOW that the numbers & science do NOT support the reaction & measures that the Federal and Provincial governments are implementing.

BUT WE ALL MUST ask ourselves WHY IS THIS?

Is it FEAR? Fear of the illness? Or is it a fear of reprisal? Condemnation? Loss of Reputation, personal security, or status? Is it all the above? Are all decisions now being made in fear?

Systematically, rights and freedoms across the globe are being dismantled – surely you must be able to see that? Step by step, control, surveillance, and restrictions are being tightened - all under the guise of a seemly deadly virus.

In your own position, are you seeing how the balance of power is being systematically rerouted away from you and to the top?

Are you seeing the new Laws, Acts & Emergency Orders being instituted with haste as never before? Are you seeing that more and more power is going to a select few with less and less accountability?

Have you yet realized in your own private thoughts, that if we continue down this path, that your own elected position will no longer exist?

Have you come to terms, that eventually given this course, EVERYTHING that we hold dear as Canadians living in a free, just, and democratic society is at stake?

Do you see the chance that there will be no more elected officials, no more elections, no more democracy, no more checks and balances, no more will of the people and that you yourselves are the people?

Have you seen the darkness that is sweeping across our communities and our nation? The naming, shaming, arguing, finger-pointing, divisiveness and violence these measures are causing?

Surely, you must be painfully aware of the suffering, rampant suicide, increased abuse, overdoses, and medical negligence that these measures are creating?

Surely you are painfully aware that we are increasingly living in a police state with practices of intimidation and threats to our local shop keepers and the public?

And so it is, TODAY with this MOTION you hold in your hands the choice. You hold the HISTORIC opportunity to tip the scales. Make no mistake, this is a crossroads, this is a defining moment. It is NOT a “get it over, go have Christmas and deal with it later” moment.

This is a moment laden with grave consequences.

This is a real, in your face, stand for Freedom and Justice, or shirk and shy away because it was easier or safer moment.

By selecting the RIGHT vote today, the YES vote today you set into motion the chance for CANADA, our glorious land to remain STRONG and FREE.

All those who stand for FREEDOM are legion, and we are with you and you will see.

Please by the grace of GOD, open your heart, awaken to the TRUTH and perform your solemn duty.

Thank you, may God Bless you all.
