

Community Safety and Well-Being Plan Focus Areas¹

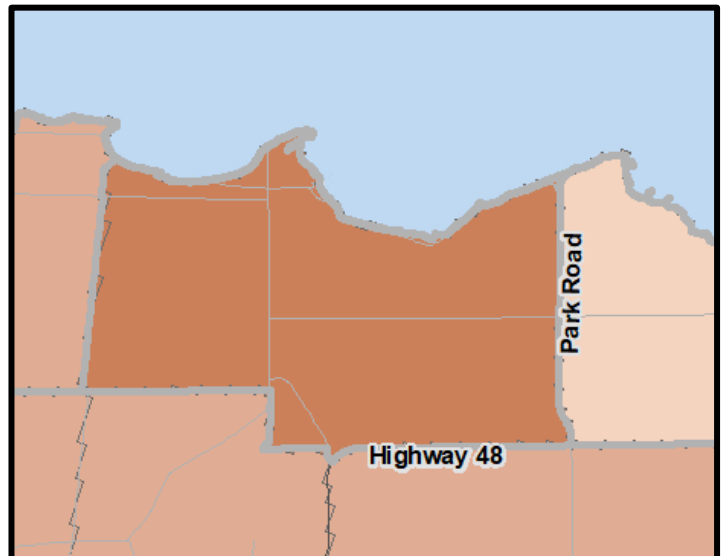

South Central Markham

South Central Richmond Hill

Central Newmarket

Northern Georgina

¹ Focus areas are identified using a composite measure of data across three domains: economic, health, and social and human development. Darkest shades of colour denote areas that score relatively low on a wide range of socio-economic indicators and represent areas of highest opportunity to improve outcomes compared to other areas in York Region. Street names and other geographic information have been included in this attachment to help identify the focus areas.
