**Brief summary of issue or purpose of deputation:**

Dear Council,

I would respectfully request each of you to pressure, in any way possible, the provincial government to rescind lockdowns as soon as possible. Besides not working for health reasons, the lockdown has brought bankruptcy to our economy and many small businesses. The enactment of the lockdown rules is insane. You have big box stores allowing hundreds of people into their premises, while smaller stores, which are much more equipped to control and enforce the 6 foot distancing, are being penalized.

I am very concerned about the gradual decline of our individual freedoms.
