**Subject:** Re: York Region - Electronic Deputation Request Submission

I think Mr Perrelli outlines it clearly but maybe I can get to the point: Open up York Region and council members vote to support what the community wants: No more lockdowns! Enough is enough. Open businesses, gyms restaurants, schools that are NOT spreaders according to our own health officials! These are illegal and unconstitutional measures that are being challenged in court..but in the meantime, MORE people are suffering and dying from these measures than they ever will from this flu and that is FACT. Those who keep voting to continue these measures are accountable for the damage being caused to citizens of york region and around the world. Its time for our council representatives to do their jobs and stand up for us and set an example for other regions to follow!
