

February 2, 2021

distribute to all council members on Thursday Feb 4th!!!

Please reconsider

## NO MORE LOCKDOWNS

Please reconsider & stop these lockdowns!! I never thought I would see the day that I felt I lived in China!!! The lockdowns are not working!!! So concerning what they are doing here! We can't visit our family & friends but you can literally go and shop almost anywhere except small businesses!!

They are causing nothing but pain to so many. There are far more crisis's going on beside Covid!!! The small businesses closing have left far too many without jobs & food on the table!! Poverty levels across the country will be in the thousands if not million! More people have died due to missed appts, cancer, loneliness, suicides not to mention the depressions in most, including our number 1 priority, our children!!! The kids need to be in school and stay in school for there health & well being!!! There has been numerous studies shown that the covid testing is by far perfect!! Also all the side effects of this vaccine they are pushing world wide!!! The numbers are ridiculous when you break them down!! We are 14,500,000 million people in Ontario!!! It doesn't take a genius to figure out the numbers!!! Open everything up let's get on with life

No more lockdowns!!!

Kim Kanellos
