Subject: Stop Highway 413. It is an environmental disaster

Dear Sir/Madam

It is my understanding that our council will be voting this week to reverse endorsement for construction of highway 413.

With that in mind and with all due respect I am writing to you as a whole, to express my deep concerns regarding that environmentally disastrous project and to let you know that **this is indeed a key electoral issue for me** and that I will make my vote count at any upcoming election. My vote will be in direct correlation on how my elected councillor and Mayor vote on this matter.

I am hoping the entire council of the City of Vaughan will **withdraw any endorsement of the GTA West Corridor/Highway 413 and stop it**. Furthermore I hope the City of Vaughan will actively oppose the provincial government with all means available at your disposal.

Kind regards

Ron Serra
