**Subject:** Stop Hwy 413

Good day

Our environment, our land, has not been respected globally and locally. The land is what gives us life. Green spaces have given way to concrete, forests cut down, rivers and lakes contaminated, and our precious farmland given way to roads and cookie cutter subdivisions, all for the illusionary platitude of "progress".

Globally, and locally, there has been reckless disregard for our environment, reckless disregard of our food security, and reckless disregard for the democratic process. Covid 19 has brought into sharp focus the importance of our green spaces for our physical and mental health.

So, please respect our local environment and STOP HWY 413. Our planet is on life support !

Theresa Molle.
