Subject: Opposed to 413

Councillor Chan,
Councillor DiPaola
Councillor Perelli
Councillor Beros:

I'm writing to you to band together with Mississauga, Vaughan, Halton Hills, Halton Region, Orangeville who voted against and opposed the construction of Hwy 413. Brampton, Caledon and Peel have voted for a Federal Assessment.

We need to save our precious wetlands, trees, agricultural lands, and wildlife. To take away and destroy our precious Holland Marsh which is our food source would affect mankind forever. A Federal Environment Assessment should be completed before any major projects and developments are approved and move forward.

Oak Ridges Moraine has already seen permanent destruction of precious environmental sensitive lands on the pretext of affordable housing. Yet the crowded homes and mass townhomes are selling for over \$1M. Affordable , I think not! Stop the madness!

We need to save our lands, and the beautiful nature to keep our air and water sources clean. The health of all of mankind depends on it. Destroying nature and taking down more trees only contributes to Global Warming. After this horrible year, we have learned what that does to climate change and the catastrophic events that have occurred. The hurricanes, fires, flooding, snow, ice-storms, and needless to remind you all, of the snow in Texas. Billions of dollars are required in emergency funding for repairs and reconstruction after these worldwide disasters. The WHO is confirming the destruction of nature cause and effect. "The illegal and unsustainable wildlife trade as well as the devastation of forests and other wild places were still the driving forces behind the increasing number of diseases leaping from wildlife to humans Stop the 413 . Protect not destroy!

Audrey Francescut
