Subject: GTA West Corridor

To the York Region Council

We were very anxious about the recent vote by our municipal council with regard to support of continuing with the GTA West Corridor study and implementation. We were most relieved when the vote came through agreeing to the motion not to support GTA West Corridor, a motion by our local councilor, Marilyn lafrate. Now our concern is the vote by York Region Council, on which are the councilors from Vaughan who want a continuation of the unnecessary transportation folly of Highway 413 and elimination of farms and open space near to the urban centres. Caledon, Mississauga and Vaughan have denied support to the province. It is York Region Council's obligation to its constituents and municipalities to also vote against the vast expenditure and against the potential environmental damage to the Oak Ridges Moraine.

There are more innovative methods to achieve an economic revival for our province!
