

# WRITTEN DEPUTATION REQUEST

REGIONAL COUNCIL

APRIL 22, 2021

**Subject:** End All Measures ASAP

**Spokesperson:** Joan Parsons

**Name of Group or person(s) being represented (if applicable):**

---

**Brief summary of issue or purpose of deputation:**

We have been held hostage for a year now with our basic rights stripped for something that is in on par or less than previous years which is verified by stats Canada and freedom of info search for All Cause Mortality as well as ICU occupancy. They measures are worse than the illness therefore making all manates acts and orders null and void or "Ultra Vires" in legal terms as an overreach of Authority by those imposing. Our kids ar suffering, suicides have tripled small businesses will not recover. Elsewhere around the world courts upholding the fact that all these lockdowns based on faulty PCR testes have had these acts and orders thrown out and places opened up. Half the states are and in those areas numbers have fallen much to the "experts" including faucinuma le to explain. The time tondonthebright thing is open up NOW. we are the laughing stick of the world but no one here finds the destruction funny. Do your jobs we pay you for (that you keep getting raises for while your constituents are treated like slaves and criminals. The police are standing up to Ford, now the rest of you do too!
