

# Cases are projected to peak mid January and decrease into February; with the new testing strategy, our reported case counts are not expected to match this curve

# Although Omicron is less severe than Delta, hospitalizations are projected to exceed the peak in Wave 3

★ **As of Jan 20**

**Baseline**  
33 hospitalizations per day

**No PHM**  
37 hospitalizations per day

**From Jan 12 – Feb 28:**

Baseline: 952 hospitalizations  
No PHM: 1025 hospitalizations
