Subject: York Region Council meeting of May 26, 2022. G.4 Draft Regional Official Plan Consultation Update and Statutory Public Meeting. Industrial access through Laskay

- 1) Item from "Comments on the Draft York Region Official Plan"

729 5 5.4 102 Humphries Planning Group Inc Request to discuss hamlet policies.

- 2) Item from "Site Specific Requests on the Draft York Region Official Plan"

16 Humphries Planning Group Inc. 3501 King Road King Request for a site specific provision be incorporated into the Hamlet policies for 3501 King Road / Laskay Hamlet that does not limit development to private services, consent application/minor infilling

My Laskay Resident Request:

Please do not broaden Laskay hamlet official plan policies stated in King Township Official plan. The expansion of Laskay along King Road already creates a new potential traffic problem. It seems unlikely that the lands in question can exit to King Road, due to proximity to 400 interchange. Which means that Laskay expansion will have to be accessed through residential subdivision, out to Weston Road.
