2023 to 2027 Strategic Plan: From Vision to Results	22

About the Plan

To achieve Council's Vision of strong, caring, safe communities, the Region sets priorities over each four-year term of Council through the Strategic Plan. The 2023 to 2027 Strategic Plan alignment with *Vision* ensures that decisions made today set a course for the desired future.

Vision aspires towards the creation of livable communities in York Region. A livable community is one that has affordable and appropriate housing, supportive community features and services and adequate mobility options, which together facilitate personal independence and the engagement of residents in civic and social life. It is a community that is resilient to a changing environment and prepared for emerging emergencies.

Strategic Plan Alignment with Vision's Four Areas of Focus

Economic VITALITY

Focuses on what is needed to encourage and sustain economic growth and vitality of the Region.

Healthy COMMUNITIES

Focuses on the livability, health, safety and social well-being of our communities.

Sustainable ENVIRONMENT

Focuses on the need to protect and sustain the natural and built environment and reduce our ecological impact.

Good GOVERNMENT

Focuses on a sense of community as one that is democratic, accessible, equitable and reliable, where civic engagement and participation is welcomed from all.

Our Community

As of March 2021, 1.17 million people called York Region home, including people from all cultures, races, ethnicities, languages, religions, abilities, ages and sexual orientations. Our diverse population includes more than 230 distinct ethnic groups.

York Region's [Census and Demographic Data](#) resource offers a variety of information products covering population, housing, income and other topics based on Statistics Canada's Census data. Every five years, Canadians are invited to participate in the census to help understand Canada's diverse population and the places where we live.

The Census of Population provides high-quality information on key socioeconomic trends and analysis that helps York Region make important decisions that affect our families, our neighbourhoods and our businesses. The Census of Agriculture is conducted at the same time and collects information about every agricultural operation.

Note: York Region census population and dwelling counts do not include the Census Subdivision of Georgina Island. All population figures do not include the census undercoverage. Totals may not add up due to rounding.

We envision
