

BE PREPARED!

ATTACHMENT 1

Make your **EMERGENCY GO-BAG** in twelve easy steps

Emergencies like power failures, extreme weather or flooding can happen without warning. Make an **Emergency Go-Bag** so you are ready if there is an emergency or evacuation.

STEP 1

Easy-to-carry bag

Use a bag that is easy to carry as your Go-Bag. Try a backpack or a small roller bag.

STEP 2

Medication

Include any regular medicine you need. Check the expiry dates and have copies of your prescriptions.

STEP 3

I.D.

Include important identification and photos of family members. Pack photocopies or a password-protected flash drive.

STEP 4

Emergency contact list

List emergency contacts including names, addresses, home and cell phone numbers, and email addresses. Remember your doctor, insurance contacts, workplace, school and childcare.

STEP 5

Money

If the power is out, bank machines may not work. Pack small bills and loonies.

STEP 6

Spare keys

For your home and vehicle.

STEP 7

Spare eye glasses/contacts

If you're evacuated in a rush, you may not be able to get your glasses or contact lenses.

STEP 8

Cell phone charger

So you have a working phone.

STEP 9

Extra set of clothes and shoes

Make sure they're comfortable and good for different seasons.

STEP 10

Washroom supplies

Pack a small toiletry bag with supplies you may need.

STEP 11

Water/snacks

Choose snacks that won't go bad.

STEP 12

Entertainment

Pass the time with a book, deck of cards or a game/toy.

Remember to plan for your pets, too!
