Subject: Food Safety Program - OAGO Value for Money Audit

Dear Colleagues,

As you are aware, the Ministry of Health and Long Term Care's food safety program, together with the Ontario Ministry of Agriculture, Food and Rural Affairs', is the subject of a value-for-money audit by the Office of the Auditor General of Ontario (OAGO). As I informed you previously, the OAGO team intends to visit a small number of public health units to gather local information on the food safety program. Over the past few weeks, the OAGO team has been on site with Toronto Public Health and will likely be with them for a couple more weeks. The ministry was informed yesterday that your public health units have also been identified by the OAGO for a field visit in the upcoming weeks. More information on the timing for the site visits and logistics of the audit process will be provided by the OAGO team.

To help support you and your relevant PHU staff in this process, the ministry's Internal Audit team will provide a webinar training session. I will follow up with the date and time next week.
Wishing you a relaxing long weekend.

Kind regards,

Laura
